## Selection Rules

**Champion of Chaos:** A Model with this rule must issue and accept challenges. Where there are multiple models with this rule, the controlling player may decide.

Whenever a model with this rule kills a character, roll a D66 and consult the Chaos Boon chart. This boon remains for the rest of the game.

**Crazed:** Если я правильно понял (если тут эта фраза, значит я так и забыл посмотреть в книге), то это значит, что Хелбрут **должен** каждый ход стрелять в **ближайшего** противника.

**Rage:** When charging, gains +2A rather than +1. Does not work if the model is making a disordered Charge.

**Furious Charge:** This gives you a bonus on the turn which you charged. It gives +1 to your initiative and strength stats for that turn.

**Hammer of Wrath:** If the model Charges into base contact. it makes a single attack at base S at

110. This attack does not benefit from other special rules.

**Draznicht's Ravagers:** The Chosen unit has Preferred Enemy (as long as Draznicht, the Chosen Champion remains alive). When Draznicht is slain, then the rule is lost.

**Mark of Slaanesh:** +1 к Инициативе

**Icon of excess:** С маркой Слаанеша дает **Feel no pain**

**Feel no pain:** It means if your unit takes a wound (after armor saves) you roll a d6. On a 5+ you ignore the wound, -4 take wound as normal. Doesn't work against wound suffered from attacks that normally ignore armor saves, example: AP 1 and 2, power weapons, rending wounds, monstrous creatures, etc.

**Fearless:** Unit automatically passes Fear, Pinning, Regroup and Morale checks. Unit cannot Go to Ground and cannot use Our Weapons Are Useless.

**Harbingers of the Tormented:** All models in a Crimson Slaughter force have Fear.

**Fear:** At the start of the Fight phase, a unit in contact with a model that causes Fear must take a Ld test. If failed, it is WS1 that phase. Models causing Fear are not immune to Fear. Both units check.

**Independent Character**

**Mark of Tzeentch:** Improves invulnerable saves by +1 (to 3++). Confers a 6+ Invulnerable if no existing save is present.

**Soul Siphon:** At the end of the assault phase, note the number of kills made by the Blade of the Relentless add it to the total killed by the blade and compare to the chart (in the Crimson Slaughter supplement). These effects are cumulative and last for the rest of the game.

## Selection Rules

**And They Shall Know No Fear:** Automatically regroups, can act normally on the turn it regroups. Not killed by Sweeping Advances. Immune to effects of Fear. (BRB 2014 p157)

**Armourbane:** Roll an additional D6 for armor penetration against vehicles only. (BRB 2014 p157)

**Combat Squads:** A 10-man unit with this rule can break down into two 5-man units.

You must decide which units are splitting into combat squads, and which models go into which combat squad BEFORE deployment, for all purposes they are considered to be two separate units. Note: two combat squads split from the same unit may share transport space in the same transport vehicle. (Codex: Dark Angels 6th p28)

**Deathwing Assault:** Units composed entirely composed of models with this rule and wearing Terminator Armour can choose to make a Deathwing Assault.

Immediately after determining Warlord Traits, tell your opponent which units are making a Deathwing

immediately after determining warlord traits, tell your opponent which units are making a Deathwing Assault, and make a secret note on whether it happens during turn 1 or turn 2. All units chosen arrive then with no need to roll for deep strike reserves. (Codex: Dark Angels 6th p44)

**Gets Hot:** Each roll of 1 To Hit causes a Wound to the firing model (armor and invulnerable saves may be taken but the Wound cannot be allocated to any other model.) Vehicles instead have a 50% chance to take a glancing hit. Blast weapons instead roll a D6 before firing; upon rolling a 1 they take the hit described above instead of firing. (BRB 2014 p164)

**Grim Resolve:** A model with this rule has Stubborn. In addition they may never choose to fail a morale check. (Codex: Dark Angels 6th p28)

**Hit & Run:** Take an Initiative test at the end of the assault phase, if successful choose a direction and roll 3D6, move that far ignoring all models in base contact. If this would take you within 1" of another unit, stop 1" away. Ignore Difficult Terrain, but make Dangerous Terrain tests normally. Enemy units left makes an immediate D6" consolidation. (BRB 2014 p165)

**Independent Character:** Independent Characters can join and leave other units that do not contain vehicles or Monstrous Creatures. Independent Characters may join with other Independent Characters to form a powerful multi-character unit.

An Independent Character counts as having joined a unit if he ends his move within 2" of them, if he is within 2" of more than one unit you must declare which unit he is joining.

An Independent Character may leave his unit and join another one in the same movement phase, but he may not join a unit in any other phase.

An Independent Character cannot join or leave a unit that is locked in combat or falling back, he also may not leave a unit that has gone to ground.

Look out Sir is taken on a 2+.

If a unit with an Independent Character in it has fallen to below 25% strength they test as if they had 25% remaining.

When an Independent Character joins a unit he loses all special rules that the unit does not have unless the rule says it applies to the unit (e.g. Stubborn) and vice versa.

If the unit is suffering from ongoing effects (eg blind, soul blaze) and the Independent Character leaves the unit, he is still suffering from those effects as well, but they do not transfer to a new unit he joins. (BRB 2014 p166)

**Inner Circle (Fearless, Preferred Enemy (CSM)):** Fearless: never fail Pinning, Fear, Regroup, or Morale checks, and cannot Go To Ground (BRB p163) and Preferred Enemy (Chaos Space Marines): Re-roll failed results of 1 for To Hit and To Wound rolls, in both close combat and shooting (BRB 2014 p169) (Codex: Dark Angels 6th p28)

**Rapid Fire:** Has one extra attack while in/below half range. (BRB 2014 p42)

**Ravenwing Combat Squads:** The Attack Bike and Land speeder are purchased as part of the Squadron but will always operate as an individual. If there are 6 bikers left after the Attack Bike and Land Speeder have split, then they operate as two squadrons of 3 bikers each. (Codex: Dark Angels 6th p47)

**Scouts:** After all deployment but before first turn a unit with this rule may redeploy. If it is Infantry, Artillery, Walker or a Monstrous Creature it may redeploy anywhere within 6", all other unit types may redeploy anywhere within 12", and all must remain 12" away from enemy units.

Any unit that redeployes with this rule may not charge on the first turn.

If held in reserve, the unit gains Outflank. (BRB 2014 p171)

**Specialist Weapon:** A model fighting with this weapon does not receive +1 Attack for fighting with two weapons unless it is armed with two or more Melee weapons with the Specialist Weapon USR. (BRB 2014 p172)

**Split Fire:** A single model may fire at a different target than the rest of the unit. (BRB 2014 p172)

**Unwieldy:** A model attacking with this weapon Piles In and fights at Initiative step 1, unless it is a Monstrous Creature or a Walker. (BRB 2014 p174)

**Vengeful Strike:** When a model with this rule arrives from Deep Strike, it treats all ranged weapons as having Twin Linked until end of turn. (Codex: Dark Angels 6th p44)

**And They Shall Know No Fear:** Automatically regroups, can act normally on the turn it regroups. Not killed by Sweeping Advances. Immune to effects of Fear. (BRB 2014 p157)

**Armourbane:** Roll an additional D6 for armor penetration against vehicles only. (BRB 2014 p157)

**Combat Squads:** A 10-man unit with this rule can break down into two 5-man units.

You must decide which units are splitting into combat squads, and which models go into which combat squad BEFORE deployment, for all purposes they are considered to be two separate units. Note: two combat squads split from the same unit may share transport space in the same transport vehicle. (Codex: Dark Angels 6th p28)

**Deathwing Assault:** Units composed entirely composed of models with this rule and wearing Terminator Armour can choose to make a Deathwing Assault.

Immediately after determining Warlord Traits, tell your opponent which units are making a Deathwing Assault, and make a secret note on whether it happens during turn 1 or turn 2. All units chosen arrive then with no need to roll for deep strike reserves. (Codex: Dark Angels 6th p44)

**Gets Hot:** Each roll of 1 To Hit causes a Wound to the firing model (armor and invulnerable saves may be taken but the Wound cannot be allocated to any other model.) Vehicles instead have a 50% chance to take a glancing hit. Blast weapons instead roll a D6 before firing; upon rolling a 1 they take the hit described above instead of firing. (BRB 2014 p164)

**Grim Resolve:** A model with this rule has Stubborn. In addition they may never choose to fail a morale check. (Codex: Dark Angels 6th p28)

**Independent Character:** Independent Characters can join and leave other units that do not contain vehicles or Monstrous Creatures. Independent Characters may join with other Independent Characters to form a powerful multi-character unit.

An Independent Character counts as having joined a unit if he ends his move within 2" of them, if he is within 2" of more than one unit you must declare which unit he is joining.

An Independent Character may leave his unit and join another one in the same movement phase, but he may not join a unit in any other phase.

An Independent Character cannot join or leave a unit that is locked in combat or falling back, he also may not leave a unit that has gone to ground.

Look out Sir is taken on a 2+.

If a unit with an Independent Character in it has fallen to below 25% strength they test as if they had 25% remaining.

When an Independent Character joins a unit he loses all special rules that the unit does not have unless the rule says it applies to the unit (e.g. Stubborn) and vice versa.

If the unit is suffering from ongoing effects (eg blind, soul blaze) and the Independent Character leaves the unit, he is still suffering from those effects as well, but they do not transfer to a new unit he joins. (BRB 2014 p166)

**Inner Circle (Fearless, Preferred Enemy (CSM)):** Fearless: never fail Pinning, Fear, Regroup, or Morale checks, and cannot Go To Ground (BRB p163) and Preferred Enemy (Chaos Space Marines): Re-roll failed results of 1 for To Hit and To Wound rolls, in both close combat and shooting (BRB 2014 p169) (Codex: Dark Angels 6th p28)

**Mastery Level 2:** Generate 2 Warp Charges per turn, choose 2 powers from: Divination, Pyromancy, Telepathy, Telekinesis or and/or Demonology

**Rapid Fire:** Has one extra attack while in/below half range. (BRB 2014 p42)

**Specialist Weapon:** A model fighting with this weapon does not receive +1 Attack for fighting with two weapons unless it is armed with two or more Melee weapons with the Specialist Weapon USR. (BRB 2014 p172)

**Split Fire:** A single model may fire at a different target than the rest of the unit. (BRB 2014 p172)

**Unwieldy:** A model attacking with this weapon Piles In and fights at Initiative step 1, unless it is a Monstrous Creature or a Walker. (BRB 2014 p174)

**Vengeful Strike:** When a model with this rule arrives from Deep Strike, it treats all ranged weapons as having Twin Linked until end of turn. (Codex: Dark Angels 6th p44)

**Exile Ray:** When firing a weapon with this special rule, a To Wound roll of a 6 wounds automatically, regardless of the target's Toughness, and the Wound has the Instant Death special rule. Against vehicles and buildings, an Armour Penetration roll of a 6 causes a penetrating hit, regardless of the target's Armour Value.

**Fearless:** The unit automatically passes Pinning, Fear, Regroup and Morale-checks but cannot Go to Ground or choose to fail a Moral Check.

**Gauss:** When firing a weapon with this special rule, a To Wound roll of a 6 wounds automatically, regardless of the target's Toughness. Against vehicles and buildings, an Armour Penetration roll of a 6 that does not cause a penetrating hit automatically causes a glancing hit.

### Independent Character

**Reanimation Protocols:** When a model with this special rule suffers an unsaved Wound, it can make a special Reanimation Protocols roll to avoid being wounded. This is not a saving throw and so can be used against attacks that state "no saves of any kind are allowed". Reanimation Protocols rolls may even be taken against hits with the Instant Death special rule, but cannot be used against hits from Destroyer weapons or any special rule or attack that states that the model is "removed from play".

Roll a D6 each time the model suffers an unsaved Wound, subtracting 1 from the result if the hit that inflicted the Wound had the Instant Death special rule. On a 5+, discount the unsaved Wound "treat it as having been saved. Certain special rules and wargear items can provide modifiers to this dice roll; these are cumulative, but the required dice roll can never be improved to be better than 4+.

If a unit has both the Reanimation Protocols and Feel No Pain special rules, you can choose to use one special rule or the other to attempt to avoid the Wound, but not both. Choose which of the two special rules you will use each time a model suffers an unsaved Wound.

### Rending

**Scarab Hive:** Once per friendly Movement phase, each Canoptek Spyder can use this special rule to create Canoptek Scarabs. To do so, nominate a friendly unit of Canoptek Scarabs that is within 6" of the Canoptek Spyder. Add a single Canoptek Scarab base to the unit "this can take the unit beyond its starting size, but must be placed within 6" of the Canoptek Spyder. If a model cannot be placed for any reason, it is destroyed. Canoptek Scarabs created in this manner can move and act normally this turn. Roll a D6 each time a Canoptek Spyder uses its Scarab Hive special rule, immediately after placing any Canoptek Scarabs that were created "on a roll of a 1 the Canoptek Spyder suffers a single Wound with no saves of any kind allowed.

**Swarms:** When two models are tied for the closest model, always allocate to the model with the least amount of Wounds left.

For Blasts and Templates each unsaved Wound is doubled unless it would cause Instant Death.  
A unit with only Swarms-models is not slowed by Difficult Terrain.

**Swiftstrike:** A model attacking with this weapon adds 3 to its Initiative during the Fight sub-phase.

**Technomancer:** This model and all models with the Reanimation Protocols special rule in his unit receive a +1 bonus to Reanimation Protocols rolls.

**Very Bulky**

**Wraith Flight:** When moving, Canoptek Wraiths can move over all other models and terrain as if they were open ground. However, they cannot end their move on top of other models and can only end their move on top of impassable terrain if it is possible to actually place the models on top of it.

**Wraith Form:** Canoptek Wraiths have a 3+ invulnerable save.

## Selection Rules

**And They Shall Know No Fear:** Automatically regroups, can act normally on the turn it regroups. Not killed by Sweeping Advances. Immune to effects of Fear. (BRB 2014 p157)

**Combat Squads:** A 10-man unit with this rule can break down into two 5-man units. You must decide which units are splitting into combat squads, and which models go into which combat squad BEFORE deployment, for all purposes they are considered to be two separate units. Note: two combat squads split from the same unit may share transport space in the same transport vehicle. (Codex: Dark Angels 6th p28)

**Grim Resolve:** A model with this rule has Stubborn. In addition they may never choose to fail a morale check. (Codex: Dark Angels 6th p28)

**Independent Character:** Independent Characters can join and leave other units that do not contain vehicles or Monstrous Creatures. Independent Characters may join with other Independent Characters to form a powerful multi-character unit.

An Independent Character counts as having joined a unit if he ends his move within 2" of them, if he is within 2" of more than one unit you must declare which unit he is joining.

An Independent Character may leave his unit and join another one in the same movement phase, but he may not join a unit in any other phase.

An Independent Character cannot join or leave a unit that is locked in combat or falling back, he also may not leave a unit that has gone to ground.

Look out Sir is taken on a 2+.

If a unit with an Independent Character in it has fallen to below 25% strength they test as if they had 25% remaining.

When an Independent Character joins a unit he loses all special rules that the unit does not have unless the rule says it applies to the unit (e.g. Stubborn) and vice versa.

If the unit is suffering from ongoing effects (eg blind, soul blaze) and the Independent Character leaves the unit, he is still suffering from those effects as well, but they do not transfer to a new unit he joins. (BRB 2014 p166)

**Inner Circle (Fearless, Preferred Enemy (CSM)):** Fearless: never fail Pinning, Fear, Regroup, or Morale checks, and cannot Go To Ground (BRB p163) and Preferred Enemy (Chaos Space Marines): Re-roll failed results of 1 for To Hit and To Wound rolls, in both close combat and shooting (BRB 2014 p169) (Codex: Dark Angels 6th p28)

**Rapid Fire:** Has one extra attack while in/below half range. (BRB 2014 p42)
